Take time to think (Wis. convention), June 16.

Hogan, Lawrence J.:
In The Nation's Capital: FCC's Minow fights back at broadcasters . . . Gives report of commisson's 1961 activities. Justice Department expected to reappraise its wiretap stand, Jan. 6. . . . Reviews make-up of Congress under new leadership as legislators return to Washington for new session. Poll indicates Americans favor use of wire-tapping in certain cases, particularly in criminal cases, Jan. 13. . . . President's State of the Union message refers to two items of immediate interest to telephone industry—(1) a forthcoming measure to govern the financing and operation of satellite communications system, and (2) extension of present excise taxes. AT&T satellite moves toward launching pad. Kerr's space communications bill, calling for private enterprise operations, introduced, Jan. 20. . . . Federal budget for fiscal 1963 analyzed. Senator Scott (R. Pa.) comes out for privately-owned satellite communications system. Jan. 27.

Where does business stand in New Frontier . . . in light of promises and efforts of Kennedy administration to woo business' support and its performance during first year in office? Sees justification for business community to be cautious and suggests it go on the offensive and develop a program to explain its position to American people, Feb. 3. . . . Attorney General Kennedy renews request for wire-tap legislation as tool to fight crime and subversion. President's space communications message expected soon . . . Administration leaders sharply divided on ownership of space system. Tax reform bill expected to reach House Feb. 19. REA telephone loan program reviewed, Feb. 10 . . . President Kennedy sends Congress bill to create privately-owned space satellite communications system . . . Although differences over President's broad ownership concept may arise, his decision in favor of private enterprise hailed by business, Feb. 17. . . . CWA to press for 3.5 per cent wage increase. FCC proposes fees for processing applications of common carriers. REA officials to testify on single loan account. Status of major bills in Congress, Feb. 24.

President Kennedy orders establishment of director of telecommunications management position . . . Dr. Irvin Stewart slated for post. Department of Urban Affairs plan voted down. Comments on expropriation of ITT facilities in Brazilian state. REA issues recommendations on borrower's general funds. Supreme Court lets wiretap decision stand, Mar. 3 . . . Senate Space Committee holds hearings on President Kennedy's proposal and Kerr Bill, calling for privately-owned satellite commumnications system. . . . Senators Kefauver and Morse introduce legislation providing for government ownership of system. House committee looks into REA co-op loans to local enterprises, Mar. 10.

AT&T and ITT executives voice objections to Kennedy administration's plan for broad-based owership of communications satellite corporation before Senate committee . . . FCC Chairman Minow in favor of limited ownership provided in Kerr Bill . . . AT&T picked to help NASA in moon space project . . . House approves bill for federal aid to E-TV development, Mar. 17 . . . FCC Chairman Minow testifies against President's broad ownership satellite communications corporation before House committee . . . He favors ownership by common carriers and recommends safeguards against domination by any organization . . . Committee's warm response to Minow's recommendations indicates Presidents' proposal has little chance of enactment, Mar. 24. . . . President's "consumer interest" proposal to Congress could have important ramifications for telephone companies. Bobby Kennedy testifies in favor President's satellite communications bill . . . Sees Congress compromise between administration proposal and Kerr Bill, Mar. 31.

Senate Space Committee reports out compromise bill on satellite communication system. Tax revision bill carries in House. Settlement for expropriation of ITT Brazilian property stalled. Gambling "wire services" curb urged. REA revolving fund killed, Apr. 7. . . . AT&T stages first simulation test of its Telstar satellite communications experiment for newspaper men. . . . Hogan suggests such a demonstration for congressmen and senators, especially the left wingers who are plugging for government ownership of communications satellites, to show what private enterprise has wrought, April 14. . . . AT&T executive stresses need for satellite communications legislation at this session of Congress before Senate committee, tells advantages of private ownership, government ownership advocates also testify. Utilities disagree on tax credit, Apr. 21. . . .
CWA's Bierne backs free enterprise at

Senate Committee's hearing on satellite communications. Corporate and dividend tax on co-ops urged. President's committee recommends changes in administrative procedures of federal regulatory agencies. Apr. 28.
Consulting firm completes long-awaited appraisal of the organization and administration of the FCC. . . . Many Washington observers wonder if $60,000 study and report was worth waiting for. . . . May 5.
House passes communications satellite bill calling for privately owned corporation and giving both the corporation and communications carriers right to own ground stations. . . TV via satellite tested. . . ETV law enacted . . . President addresses U.S. chamber of commerce . . . May 12.
Senate committee completes testimony on satellite communications bill. . . . Regulatory lag hit in Senate report. . . . seeks to provide REA loans for ETC telephone facilities. . . . REA loan bill revised in Senate, May 19.
Senate approves move to give President authority to cut off aid to any country which siezes U.S. property. . . . House approves REA act amendment. . . . House approves AT&T plane-to-ground stations. House committee approves expanded space budget. . . . Minow predicts TV boom. . . . New drive to tighten control on horse race results. May 26.
House bill provides 85.3 million dollars for space communications satellites. . . . Senate committee close to finishing work on communications satellite ownership bill. . . . Anti-seizure of American property provided for in foreign aid bill, June 2.
FCC chairman Minow defends public and private ownership of communications satellites. . . . Satellite bill to be reported to Senate soon. . . . Pennsylvania representative proposes that public telephones be permitted along interstate highway system. June 9.
Senator Hickenlooper offers amendment providing stiffer penalty on foreign countries expropriating American-owned properties. . . . Several representatives request telephone excise tax be eliminated, but bill to continue excises receives same treatment it has in past—discussion and passage. . . . Southern Bell in law suit over Memphis franchise tax. June 16.
Communications satellite bill opposed by senators who believe in government ownership. . . . claim necessary elements for satellite system have been "financed by taxpayers of the U.S." Telephone excise tax to continue but it is attacked in senate. June 23.
Senator Kefauver becomes most vocal standard bearer of advocates of government ownership of communications satellite system. . . . Rankles colleagues by trying to talk private ownership bill to death. June 30.
